How We Calculate Your Balance: We use a method called "average daily balance (including new purchases)."

Minimum age requirement: You must be at least 18 years of age to apply. At the date this application was printed (shown in lower right-hand corner) the information listed above was accurate. Because rates and terms are subject to change, you may contact us for the current information by writing to Plains Commerce Bank, PO Box 7, Hoven, SD 57450.

#### **Important Information**

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. What this means for you: When you open an account we will ask for your name, address, date of birth, and other information that allows us to identify you. We may also ask to see your driver's license or other identifying documents.

#### **Interest Charges**

No periodic Interest Charge will be assessed against purchases if you have paid (we receive) the full New Balance shown on your statement by the Payment Due Date (25 days on average from billing). If we do not receive the entire New Balance by the Payment Due Date, periodic Interest Charges will accrue on all purchases, and other fees and charges from the day they were posted to your account. Interest Charges will accrue on Cash Advances from the later of the transaction date of the Cash Advance or the first day of the billing cycle in which the Cash Advance posts to your account until paid in full.

When a Cash Advance is posted to your account there is a one-time Interest Charge for each Cash Advance posted of \$2.00 or 2.00% of the Cash Advance amount, whichever is greater.

The Interest Charge resulting from the application of the periodic rate is determined by multiplying the "Average Daily Balance" for Purchases and the Cash Advances outstanding during the monthly billing cycle by the monthly "Periodic Rate." The monthly "Periodic Rate" is 1.00% which is equivalent to an Annual Percentage Rate of 12.00%.

The "Average Daily Balance" is computed by taking the beginning balance of your account on each day, calculated separately for Purchases and Cash Advances, adding new purchases and/or cash advances and subtracting any payments or credits to get each day's daily balance. The daily balances are then added together and divided by the number of days in the billing cycle to get the "Average Daily Balance." You may pay all or any portion of your unpaid account balance at any time without incurring any special or extra Interest Charge.
