Important Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. What this means for you: When you open an account we will ask for your name, address, date of birth, and other information that allows us to identify you. We may also ask to see your driver's license or other identifying documents.

Interest Charges

No periodic Interest Charge will be assessed against purchases if you have paid (we receive) the full New Balance shown on your statement by the Payment Due Date (25 days on average from billing). If we do not receive the entire New Balance by the Payment Due Date, periodic Interest Charges will accrue on all purchases, return check fees, replacement account fees, and documents copy fees from the day they were posted to your Account. Interest Charges will accrue on Cash Advances from the transaction date of the Cash Advance or the first day of the billing cycle in which the Cash Advance posts to your account until paid in full.

When a Cash Advance is posted to your account there is a one-time Interest Charge for each Cash Advance posted of \$5.00 or 3.00% of the Cash Advance amount, whichever is greater.

Periodic FINANCE CHARGE in the form of interest is determined by multiplying the "Average Daily Balance" for Purchases and for Cash Advances outstanding during the monthly billing cycle by the monthly "Periodic Rate." The monthly "Periodic Rate" for Purchases is 1.575%, which is equivalent to an **ANNUAL PERCENTAGE RATE** of 18.90%. The monthly "Periodic Rate" for Cash Advances is 1.7417%, which is equivalent to an **ANNUAL PERCENTAGE RATE** of 20.90%. Interest will be charged if you did not pay the previous balance in full by the payment due date. We will charge interest on the Average Daily Balance.

Calculating Average Daily Balance (including current transactions): For Purchases: We figure the FINANCE CHARGE on your Account by applying the periodic rate to the "Average Daily Balance" of your Account including current Purchases. To get the Average Daily Balance we take the beginning Purchases balance of your Account each day, subtract any unpaid FINANCE CHARGE(S) and late fee(s), add any new Purchases, and subtract any payments (less unpaid finance charge(s) and late fee(s)) and credits. This gives us the Purchases Daily Balance. Then, we add up all the daily purchases balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the Purchases Average Daily Balance. **For Cash Advances:** We figure the FINANCE CHARGE on your Account by applying the periodic rate to the "Average Daily Balance" of your Account including current Cash Advance transactions. To get the Average Daily Balance we take the beginning Cash Advance balance of your Account each day, subtract any unpaid FINANCE CHARGE(S) and late fee(s), add any new Cash Advances, and subtract any payments (less unpaid finance charge(s) and late fee(s)) and credits. This gives us the Cash Advance Daily Balance. Then, we add up all the daily cash advance balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the Cash Advance Average Daily Balance.
